

# AFRICAN INSIGHT

EXPERIENCES THAT MAKE A DIFFERENCE

## YOUTH DEVELOPMENT SCIENCE ON SAFARI

# YOUTH DEVELOPMENT: SCIENCE ON SAFARI

Incorporating the adventure of a wildlife safari, hands on learning of bush skills as well as identification of mammals, reptiles, birds and insects in one experience is what this Science on Safari educational adventure is all about.

Our team of wildlife and safari professionals have pulled out all the stops to ensure that this adventure is more than anything the most well "game reserved" teenager will ever have experienced.

Located in prime Zululand wildlife country the 12000ha Somkhanda Game Reserve is where this adventure takes place.

## Programme Includes:

- Mammal, bird, reptile and insect identification
